**Headlines Academy, Inc.**

Headlines Academy is an accredited vocational school that offers diplomas in Cosmetology, Massage, Esthetics and Nail Technology.

Established in 1981 and always owned and operated by a licensed cosmetologist with a true passion for the industry, it has grown with the expanding industries so much that a new building was needed in 2010 so that all the specialty classes we offer could have space.

What makes headlines different? We pride ourselves on the years of research and passion to always be offering mastery techniques and classes that go above just the basics in hair, skin, nails and massage. Your success is our top priority.
